What font types are good for a technical document?

Inquiry-based learning (also spelled as enquiry-based learning in British English) is a form of active learning that starts by posing questions, problems or scenarios. It contrasts with traditional education, which generally relies on the teacher presenting facts and their own knowledge about the subject. Inquiry-based learning is often assisted by a facilitator rather than a lecturer.

Chapter ending questions:

The annual inflation rate in LDCs increased from less than 10 percent in the 1960s to over 20 percent in the 1970s and over 70 percent in the 1980s, but fell to 16 percent in the 1990s. The highest inflation rates, in Latin America, dropped to about 30 percent yearly in the 1990s. Demand pull is not an adequate explanation for inflation in LDCs.

Document-oriented Databases. Document-oriented databases, or document stores, are NoSQL databases that store data in the form of documents. Document stores are a type of key-value store: each document has a unique identifier — its key — and the document itself serves as the value.. The difference between these two models is that, in a key-value database, the data is treated as opaque and ...

Between each vertebral body of the spine are pads of fibrocartilage-based structures that provide support, flexibility, and minor load-sharing known as the intervertebral discs. These are primarily composed of two layers: (1) a soft, pulpy nucleus pulposus on the inside of the disc and (2) a surrounding firm structure known as the annulus fibrosus. A disruption of the normal architecture of ...
