Listening is arguably one of the most difficult skills in communications, and we're getting worse at it. In 2006, Dr. Ralph Nichols - who established the first study in the field of listening nearly 40 years ago at the University of Minnesota - quantified that we spend 40 percent of our day listening to others, but retain just 25 percent of what we hear.

Listening to Understand vs. Listening to Reply - Andy Eklund

Of course it's great to have a well-thought-out reply, but if you're thinking about what you want to say instead of hearing what the other person is saying, you aren't really listening and communicating well.. You may be getting your point across — or not, if the other person listens the same way you do — but you're not having a meaningful interaction with the other person.
