offers an array of book printing services, library book, pdf and such as book cover design, text formatting and design, ISBN assignment, and more.

Fossil Record Study Guide Answer

1. Fossils are usually found in sedimentary rock. Since most sedimentary rock is laid down by water, it follows that most fossils were laid down by water. 2. The vast majority of the fossil record is made up of hard - shelled creatures like clams. Most of the remaining fossils are of other water - dwelling creatures or insects.
