Yes, that's right. But it assumes that you can only detect that you have something wrong once you put down the last piece. Usually one can notice that without all pieces placed that the ones that are placed yet don't match up. Doing so leads to a branch-and-bound search which can be quite a bit faster if you're good at detecting wrong branches early.

Jigsaw puzzles [37,38] are perhaps the most popular form of puzzle. The original jigsaw puzzles of the 1760s were cut from wood sheets using a hand woodworking tool called a jig saw, which is where the puzzles get their name. The images on the puzzles were European maps, and the jigsaw puzzles were used as educational toys, an idea still used
