The key factors for the issue Canon Printer Won't Printing are: the print jobs stuck in printer queue, the paper jams disable the printer's ability to print, the out-of-date printer driver, low ink cartridge, and faulty network connection. These are the main possible reasons of not allowing the printer to print.

How do I connect my Canon Pixma printer to WiFi? - Big ...

Manually Clean the Printhead. 2. If your printer uses ink cartridges with an integrated printhead where the printhead is built into the cartridge, like the HP 67 ink cartridge series, you can try cleaning the cartridges manually using the "paper towel" method. This is another easy way to fix a clogged printhead and only takes a couple of minutes!
