All CME courses use NYSORA's proprietary cognitive aids that facilitate understanding of the material and its retention, such as: instructional videos, animations, illustrations, NYSORA's reverse US anatomy™ 3-D anatomy videos, and labeled ultrasound images. Based on NYSORA's most popular regional anesthesia workshops, this uniquely practical course is devised to feel like a workshop ...

Home - NYSORA

"Most people need two things to climb the learning curve of ultrasound-guided regional anesthesia (UGRA): (1) tons of repetition in high fidelity simulation and (2) immediate feedback from experts. Most UGRA courses offer feedback from experts, but Maverick is the only company with pulsatile cadavers for their simulation.
